

Find out about
career paths of marine &
climate scientists!
What is their current job like?
How did they get it?
Which skills do they need?

Seminar announcement

Career Insights Online – Advisors in Bioinformatics and Fisheries

for young researchers enrolled in PhD programmes at the Marine
Graduate Schools in Bremen, Bremerhaven, and Oldenburg

with: **Dr. Annika Mackensen**

works as advisor for sustainable fisheries and aquaculture at the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH. After her PhD in 2013 she also gained work experience at the WWF.

Dr. Pelin Yilmaz

after her PhD and postdoc in Bioinformatics started her career as advisor at b.experts GmbH and b.value AG to guide company builders from the initial planning to market entry. Since some months she is back in science at the Institut für Künstliche Intelligenz in der Medizin (IKIM).

Date & Time: June 4th, 2021 at 14:00 - 15:30

Format: online meeting

Language: English

Participants: maximum of 40

Target group: Early career scientists who are interested in broadening their horizon and getting new ideas for their own future career development.

Registration: cgloeckn@mpi-bremen.de

The seminar format "*Career Insights Online*" aims at introducing different job perspectives for marine and climate scientists in the widest sense and offers the possibility to get in touch with former members of the Marine Graduate Schools in Oldenburg, Bremen and Bremerhaven. It focusses on career paths outside of academia and will give insights into job fields in, e. g. industry, (public) administration, consulting, and journalism. Speakers are asked to talk about their current position, the interdisciplinary skills they achieved during their doctorate, the career steps they took, as well as about work-family-life-balance. After a short presentation, participants will have the opportunity to ask questions to the speaker.
