Workshop “Hot Topics in Hearing and Neuroscience: Where are we and where will we go (together)?”

Join us to discuss current and future areas of cooperation in the fields of hearing and neuroscience. Everybody welcome!

Thursday, October 29th 2020

at: <https://webconf.uol.de/b/chr-fl6-twd-rj5>

To join via telephone (limited access): dial +49 441 798 4455 and specify conference PIN 59348.

9:00 - 9:30: Introduction

Birger Kollmeier (UOL) and Pim van Dijk (RUG): *Collaboration Groningen-Oldenburg in Hearing & Neuroscience: How did it start and where will it go?*

9:30 - 11:00 Topic “Advances in neurostimulation: From basic research to therapy”

9:30 Christoph Herrmann (UOL): *Transcranial alternating current stimulation: Status quo and perspective*

9:45 André Aleman (RUG): *Non-invasive brain stimulation for schizophrenia: Positive and negative symptoms*

10:00 René Hurlemann (UOL): *The future is now - rapid treatments for depression*

10:15 Pim van Dijk (RUG): *Neurostimulation for treatment of tinnitus*

10:30 – 11:00 Discussion

11:30 - 12:30 Topic “mHealth”

11:30 Harriëtte Riese (RUG): *The promise of self-monitoring for precision-psychiatry*

11:45 Bernd Meyer (UOL): *Alexa, test my hearing: Speech audiometry in the living room*

12:00 – 12:30 Discussion

13:30 - 14:30 Topic “Auditory sensory system”

13:30 Sonja Pyott (RUG) and Christine Köppl (UOL): *Mechanisms and evolution of hearing and hearing loss*

14:00 – 14:30 Discussion
